

SUMMARY

Finding a better challenging environment to express my true potentials and increase my knowledge level that enable me to progress in my profession that in turn contribute to the development and success of the organization.

EDUCATION	B Tech in B Tech in Electronics and Communications Engineering, College of Engineering Kanhangad, India	Aug 2019 – Jul 2023
	Higher Secondary in Plus Two, Durga Higher Secondary School Kanhangad, India	Aug 2017 – Apr 2019
	Secondary School in SSLC, Durga Higher Secondary School Kanhangad, India	May 2016 – Apr 2017

- SKILLS
- Programming Languages and Technologies: ReactJS, HTML, JAVASCRIPT, TYPESCRIPT, CSS, Website Development, BOOTSTRAP, JQUERY, JSX/TSX
 - Document Creation: Overleaf Latex, Scientific and technical documents creations
 - General Skills: Python, Problem solving, Team Management, Decision making, Time management

PROJECTS	Developed Mini JavaScript Projects, Developer Kanhangad, India	Sep 2022 – Jun 2023
	- Created multiple projects using JavaScript, HTML, and CSS to gain practical experience in front-end development. - Designed and implemented a Calculator to perform basic arithmetic operations. - Built a functional Stopwatch with start, stop, restart, pause, and reset features. - Created a BMI Calculator to evaluate body mass index based on user input. - Developed a Currency Converter with API integration to fetch real-time exchange rates and perform accurate currency conversions.	
	Plastic bottle reverse vending machine with coin dispenser, Project Lead Kanhangad, India	Sep 2022 – Jun 2023
	Implemented innovative plastic bottle recycling program utilizing smart RVMs with reward incentives. Spearheaded efforts to encourage proper disposal, reducing environmental pollution. Successfully promoted recycling awareness, cost-effectiveness, and sustainable practices for a greener future.	
	GSM Based Security System Using ARDUNIO, Developer Kanhangad, India	Feb 2021 – Jul 2021
	A brief overview of our GSM-based home security project: Utilizing GSM technology for wireless communication, we offer remote access via SMS alerts. Integrated microcontroller ensures efficient device control, and our cost-effective solution provides reliable security measures. Homeowners gain peace of mind even when away.	
	Holographic Projector, Designer Kanhangad, India	Sep 2019 – Oct 2019
	Designed holographic projector for mobile phones, enabling video projection. Led project from start to finish, making it easy to use with smartphones. Created captivating visuals using advanced technology for portable holographic projection. Showcased expertise in optics and mobile integration.
